HOW TO DESIGN DOORS | WALLS

Design, lines, experience the developed look. Stimulate, explore, balance with your interior. Play, color, refine that thought. Study, understand, build and create, where you want and how you want. A vision, a statement, an expression, a completion. Focused search, a tool, a lead.

We believe that everybody has a unique vision.

OUR SERVICES

HOW TO DESIGN

Design courses that teach how to define doors and walls, how to design their appearance, how to creatively understand more and look for the perfect match with your interior.

HOW TO MEASURE

Innovative measurement courses designed and developed in drawing form that makes the understanding of performing a measurement more accessible.

STUDIO MEASURE

Fictional realizations summarizing different measurement skills in 1 package. An interior measurement tool that promotes strategic thinking and serves communication.

Who am I

Serjozja Malfait is a Belgian entrepreneur and developer of the How to Measure doors | Walls product. Serjozja graduated as an assistant architect, enjoyed training as an all-round business manager and acquired his knowledge as a project manager, production planner and architectural draftsman for various companies in the manufacturing sector.
